

The screenshot shows a web browser window with the URL `app.testingmazeco.cloud/projects`. The page header includes the team name `trm realistic` with a sub-label `Team - Admin` and a dropdown arrow. To the right, there are member avatars for `gB`, `AM`, `Ga`, `NJ`, `AA`, and `+1`, along with an `+ Add members` button. The main content area is titled `Projects` and features a notification: `6 active projects remaining on your Team plan`. Two buttons are present: `New Project` (blue) and `Browse Templates` (white with black border). Below this is a filter for `ACTIVE` with a dropdown arrow. Four project cards are displayed in a row, each with a light purple arc graphic and the following details:

- `Conditional project`: 2 mazes
- `A simple project`: 1 maze
- `fruits and vegetables`: 1 maze
- `🍔 Where to buy a burger in Paris`: 1 maze

A vertical sidebar on the left contains icons for home, grid, group, and user profile.

The screenshot shows a web browser window with the URL `app.testingmazeco.cloud/projects/1924318/mazes/1924319/results`. The page title is "Projects > 🍔 Where to buy a burger in Paris > V1". A modal dialog is open in the center, titled "Your maze lives in this link" with a close button (X) in the top right. The dialog contains the following elements:

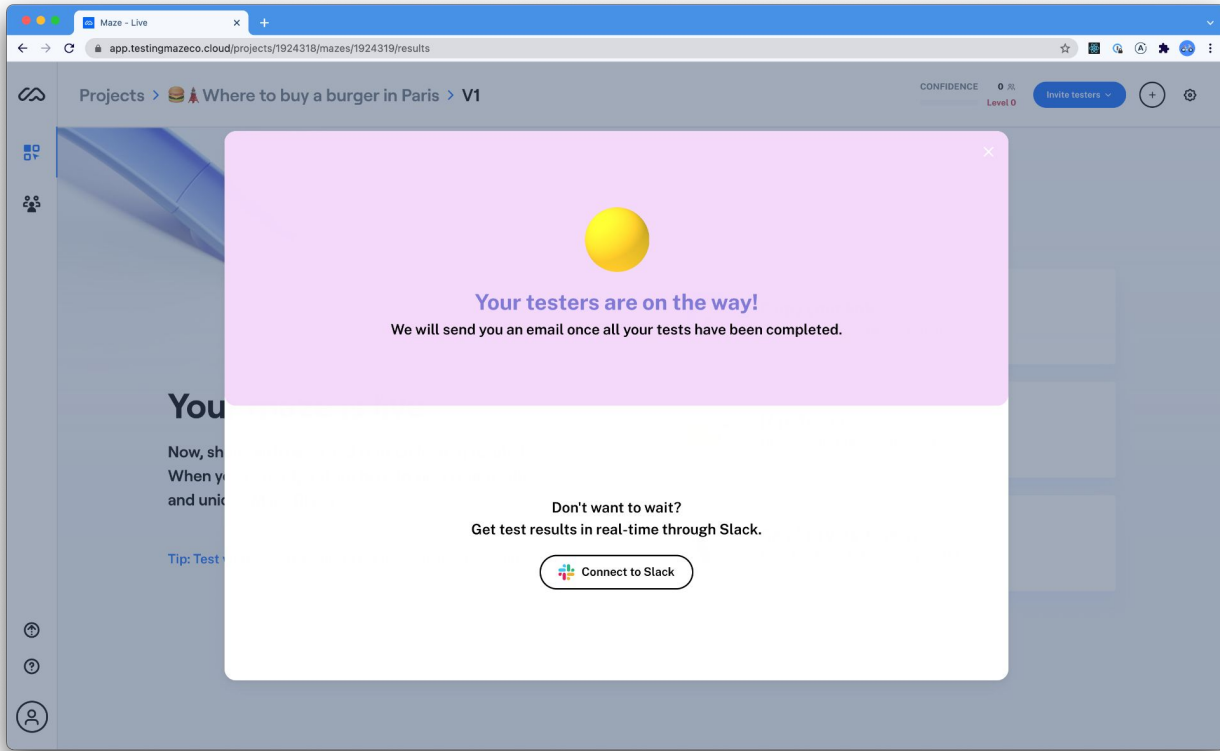

- A link icon and the text: "Your maze lives in this link. Share it with people so they can visit and test your prototype."
- A text input field containing the URL: `https://t.testingmazeco.cloud/1924319`
- A blue "Copy link" button.
- A section titled "LINK OPTIONS" with two toggle switches:
 - Tester tracking** (checked): Record every interaction your testers perform with your maze.
 - Unique session** (checked): Allow only one unique session per tester device.
- A section titled "Enrich tester information with URL tags" with the text: "Record custom tester information by adding URL tags to your maze link."
- A link: [Learn how to record custom metadata for individual sessions →](#)

In the background, the main interface shows a "CONFIDENCE Level 0" indicator, an "Invite testers" button, and three action cards: "Copy your link", "Hire Testers", and "Send to your testers".

How many testers do I need?

🌟 Level 0 -5 🌟
Test your maze with at least five people to start learning how your designs perform with real users.

🌟 Level 1 5-20 🌟
At this level, you uncover the most common issues and learn how your designs perform with sufficient participants for accurate results.

🌟 Level 2 21-100 🌟
Keep up the pace to discover undetected issues in your designs – increasing the number of participants can uncover all usability problems.

🌟 Level 3 >100 🌟
More testers means greater confidence that all problems have been found. Well done you!

05.results-path

The screenshot displays the Maze testing interface. At the top, the browser address bar shows the URL: `app.testingmazeco.cloud/projects/1924318/mazes/1924319/results`. The main header includes the project name "Where to buy a burger in Paris" and a "V1" version indicator. A "CONFIDENCE" indicator shows a level of 1. Navigation buttons include "Invite testers", "Go to report", and a settings icon.

The interface is divided into several sections:

- Left Sidebar:** Contains navigation icons for home, grid, and users. Below these are mission cards:
 - Complete the onboarding** (Mission)
 - How appealing is this app** (Opinion Scale)
 - Select Big Fernand** (Mission)
 - Do you feel like you have learned some French** (Yes/No)
 - Okay, then, say something in French** (Open Question)
- Filters Modal:** A central modal titled "Filters" with the subtitle "Filter the data collected in this test". It contains two dropdown menus:
 - FILTER BY:** Set to "Results".
 - WHERE:** Set to "Select...".A blue "+ And" button is located below the dropdowns. At the bottom of the modal are "Cancel" and "Save filters" buttons.
- Background Content:** A dark blue area showing a "1 RESPONSE" and a "Give-up / Bounce" section with a "0% 0 TESTERS" metric.

05.results-filters

The screenshot displays the Maze application interface. The browser address bar shows the URL: `app.testingmazeco.cloud/projects/1924318/mazes/1924319/results`. The main content area is titled "Where to buy a burger in Paris > V1" and features a sidebar with mission cards: "Complete the onboarding", "How appealing is this app", "Select Big Fernand", "Do you feel like you have learned some French", and "Okay, then, say something in French". The main panel shows mission results for "Complete the onboarding", including a 100% success rate for direct paths and aggregated paths. A "Maze settings" panel is open on the right, showing options for premium features (CSV export, password) and prototype options (scaled prototype, delay success message). The settings panel also includes an integrations section for Slack and a "DANGER ZONE" section.

Maze settings

PREMIUM FEATURES
